Remarks: Attached are copies of pertinent memos from [redacted] file on the nuclear handbook. On the basis of our limited knowledge of the kind of study most nearly meeting the requirements of all of the operating divisions, we feel the OSI outline is better than WE's original proposal. [redacted] and [redacted] also appeared to have accepted it. We hesitate to recommend accepting the assignment until we are sure that we have someone with sufficient scientific background to collate the materials which OSI has offered to provide. If [redacted] is available and interested, we would like to discuss the matter with him before talking further with [redacted] et al.
